Access your browser settings

When the browser opens, we locate the three dots in the upper right corner that give access to the browser's options menu

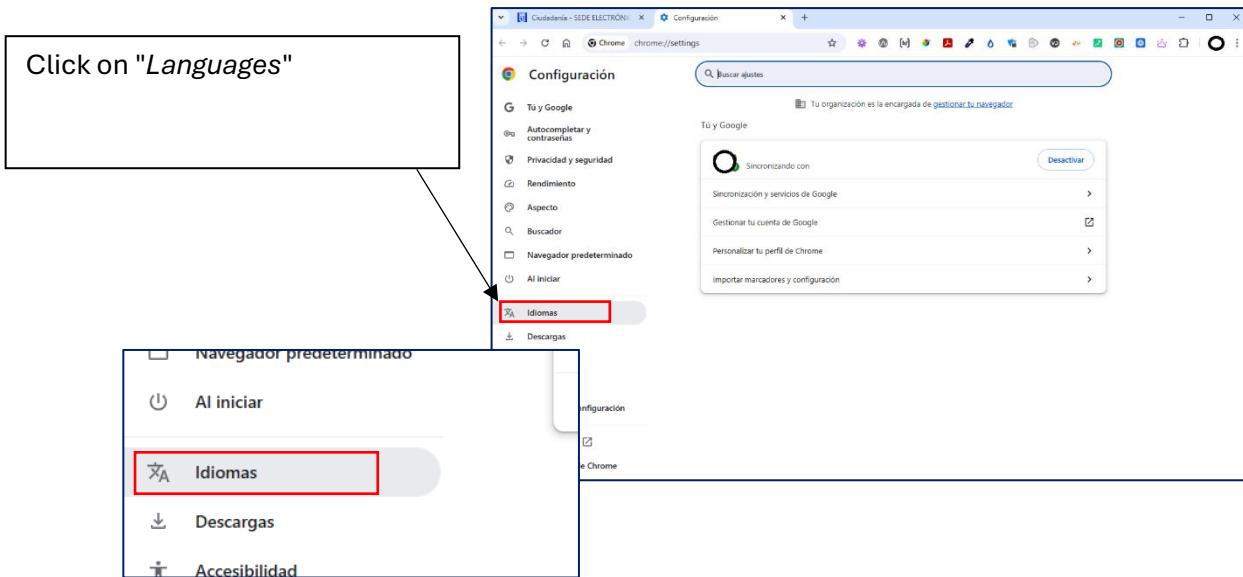

When the browser options menu is displayed, we click on "Settings"

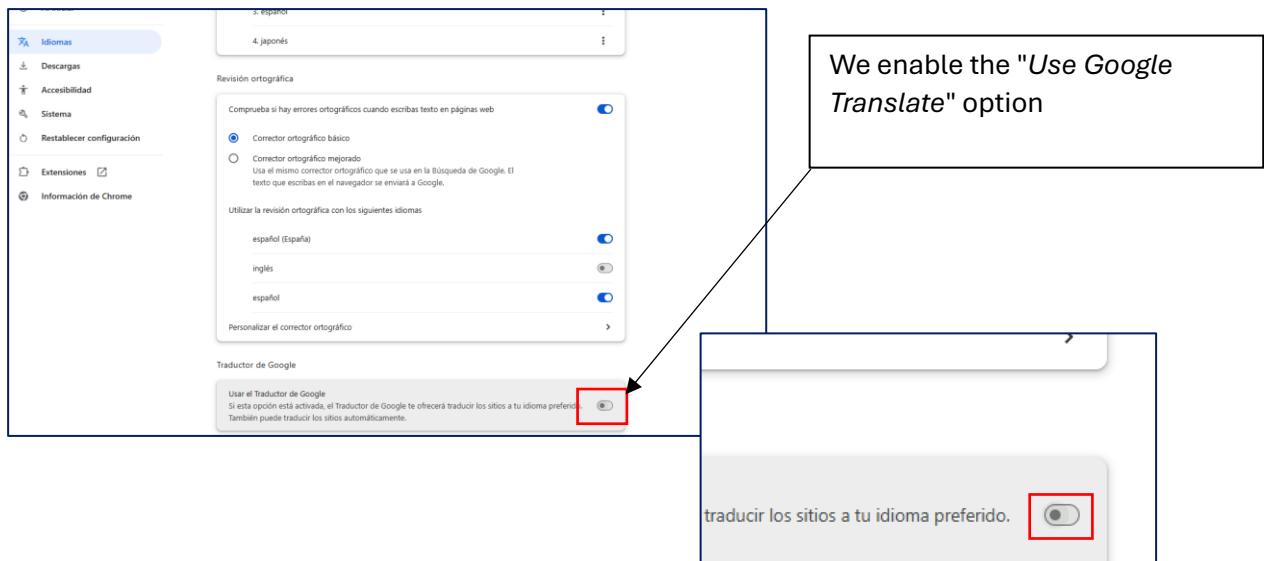

Enable Google Translate

In the options bar on the left side, click on the "Languages" option

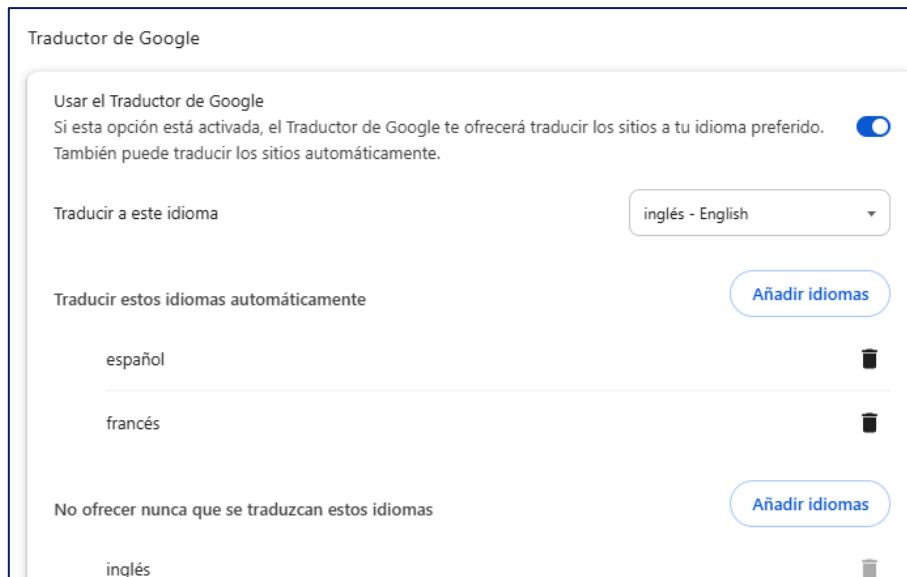

When we access the "Languages" options we must go to the end of these to where the "Google Translate" section is located and enable it.

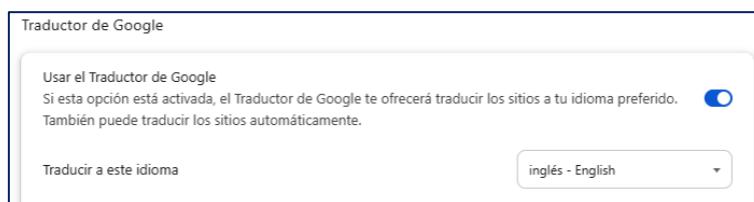

Set up Google Translate

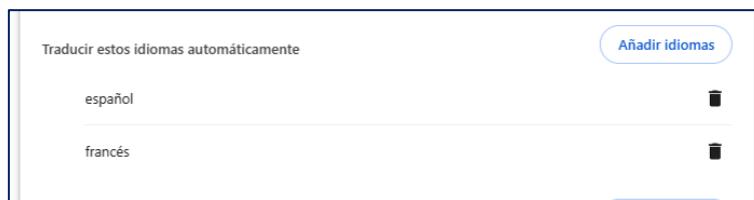

Enabling the "Use Google Translate" option displays the Google Translate settings.

In the first section we must choose the language into which we want the translation to be made. We set it to "English – English" as we see in the image:

In the next section, we will select which languages the translation will be made from, i.e. any website visited that is in the languages that are configured in that section will be translated into the "English – English" that has been configured in the previous section.

The last section indicates that web pages in the languages that are configured here will not be translated by the translator

Check the translation

Enter the electronic office, the page is automatically translated:

The screenshot shows the City of Madrid's electronic office website. The top navigation bar has 'español' and 'inglés' buttons, with 'inglés' selected. A message box indicates 'Maintenance work on Wednesday, November 26th from 06:00 to 07:00' and a link to 'Click here for more information'. The main content area is titled 'ELECTRONIC OFFICE' and shows a 'Formalities' section. On the left, there's a sidebar with links like 'Information and Help', 'Frequently Asked Questions', 'Personal data protection', 'Electronic identification and signature', 'Electronic notifications', 'Madrid Mobile App', 'Automated administrative procedures', and 'Electronic Inventory of'. The 'Formalities' section includes a search bar and a list of 'Featured procedures' with links to 'From October 1st to December 1st, voluntary payment period for IBI, IAE, OCU and Terrace Tax', 'Objections to draft regulations, approved by the Governing Board, during the public information period', 'Subsidies for the birth or adoption of a minor in favor of parents or adoptive parents registered in the municipality of Madrid', and 'Economic-administrative claims of the Madrid City Council'.

The procedures are automatically translated into the chosen language, whether they are GEDIE or WFORM:

The screenshot shows a step in the electronic office process titled 'Procedure: Application for aid for the birth or adoption of a minor'. It asks for 'Indication of the course of action' with two radio button options: 'Details of the interested person or entity' and 'Details of the person or entity representing'. At the bottom are 'Cancel' and 'Continue' buttons.

The screenshot shows a step in the electronic office process titled 'Formalities'. The title is 'OBJECTIONS TO DRAFT REGULATIONS, APPROVED BY THE GOVERNING BOARD, IN THE PUBLIC INFORMATION PERIOD'. It shows an 'Online processing' step with a progress bar from 01 to 05, where step 01 is highlighted. A sub-step '02. Fill our application' is described as 'Fill out the form and click the Continue button to complete the information and attach documents. You can also save the form to finish the process later. Fields marked with (*) are required.' At the bottom, there's a logo for 'MADRID' and a large blue button labeled 'ALLEGATIONS'.
